# Report for the 4th quarter 2024

Brief activity report

In the 3rd quarter 2024,

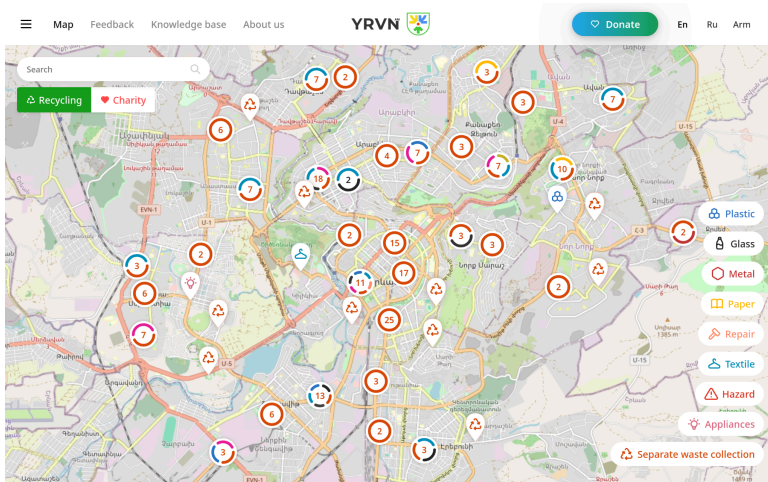

\*AI generated "Green Yerevan" vision by Dall-E from Openai

## Projects

### YRVN.AM

Ongoing updates and support of the YRVN.AM.

Website: <https://yrvn.am>

### EcoparsecEDU

EcoparsecEDU platform was launched in partnership with Hazardous Waste Management Yerevan-Warsaw-Tirana project. The platform has educational materials and self-assessment tasks about recycling, circular economy, and hazardous waste, including guides for Yerevan specifically.

Website: <https://edu.ecoparsec.ngo/>

## «Oxygen Cocktail» Podcast

Oxygen Cocktail continues airing!

YouTube: <https://www.youtube.com/@EcoparsecNGO>

## «Household Medical Waste» Project

Ecoparsec NGO has initiated the process to allow pharmacies to accept medical waste from households. This will allow for a proper disposal of medical waste, and reduce the poisoning of the environment when the household medical waste is discarded into general landfills.
